

# PROCEEDINGS — OF — THE ROYAL SOCIETY

MATHEMATICAL, PHYSICAL  
& ENGINEERING SCIENCES

1364-5021(200912)465:2112

8 December 2009

volume 465 · number 2112 · pages 3581–3884

## Research articles

- Magnetostatics of the uniformly polarized torus** 3581  
M. Beleggia, M. De Graef & Y. T. Millev
- A boundary element regularized Stokeslet method applied to cilia- and flagella-driven flow** 3605  
D. J. Smith
- Pressure rise generated by the expansion of a local gas volume in a closed vessel** 3627  
D. Stamps, E. Cooper III, R. Egbert, S. Heerdink & V. Stringer
- Controlled onset of low-velocity collisions in a vibro-impacting system with friction** 3647  
F. Svahn & H. Dankowicz
- A novel method of solution for the fluid-loaded plate** 3667  
A. C. L. Ashton & A. S. Fokas
- Boltzmann and Fokker–Planck equations modelling opinion formation in the presence of strong leaders** 3687  
B. Düring, P. Markowich, J.-F. Pietschmann & M.-T. Wolfram
- Sequential Monte Carlo methods for diffusion processes** 3709  
A. Jasra & A. Doucet
- Stochastic expansions and Hopf algebras** 3729  
S. J. A. Malham & A. Wiese
- Cones of material response functions in one-dimensional and anisotropic linear viscoelasticity** 3751  
M. Seredyńska & A. Hanyga
- Supporting electrolyte asymptotics and the electrochemical pickling of steel** 3771  
M. Vynnycky & N. Ipek
- A sufficient condition for the existence of trapped modes for oblique waves in a two-layer fluid** 3799  
S. A. Nazarov & J. H. Videman
- Single- and double-spiral-vortex models for a supercavitating non-symmetric wedge in a jet** 3817  
Y. A. Antipov & A. Y. Zemlyanova
- Using solvents to remove a toner print so that office paper might be reused** 3839  
T. A. M. Counsell & J. M. Allwood
- The mechanics and mathematics of the effect of pressure on the shear modulus of elastomers** 3859  
K. R. Rajagopal & G. Saccomandi
- Effects of microstructures on mesoscopic morphological transitions in deposition growth models** 3857  
P. A. Sánchez, T. Sintes, O. Piro & J. H. E. Cartwright

Volume title page and table of contents

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science

Registered Charity No 207043
